SENATE BILL

No. 1613

Introduced by Senator Margett

February 22, 2008

An act to add Section 136.6 to the Streets and Highways Code, relating to public contracts.

LEGISLATIVE COUNSEL'S DIGEST

SB 1613, as amended, Margett. Department of Transportation: contracts.

Existing law generally requires contracts for public works to be awarded pursuant to various procedures in the State Contract Act. Existing law exempts certain types of contracts awarded by the Department of Transportation from the State Contract Act, including contracts for major damage mitigation, equipment leasing or renting, and removal or relocation of structures or improvements on highway rights-of-way. These exempt contracts are generally required to be awarded to the lowest responsible bidder after competitive bidding on any reasonable notice prescribed by the department, but only if the estimated amount of the contract exceeds \$2,500. Exempt contracts up to and including \$2,500 are not subject to those alternative bidding procedures.

This bill would provide that exempt contracts up to and including \$25,000 for the leasing or renting of operated heavy highway equipment

for state highway maintenance purposes are also not subject to those alternative bidding procedures.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
